Mixture. This mixture is made up of many varieties, good ones, early to late, mostly kinds not in the preceding list. For a wide acquaintance with the narcissus in its many forms, and for an abundant supply of flowers at a minimum of cost, this opportunity can not likely be surpassed, if equaled. I have been growing narcissus bulbs for years, have tried many varieties, and developed a large supply. All the sizes are graded from the same pile of bulbs, but the largest grade will hold most of the large-trumpet kinds, and will lack some that make only small bulbs, while the third size will lack the large trumpets, and be short also in some of the kinds which make large bulbs. Large size, 12 for 50c, 25 for 90c, 100 for \$3.00. Medium size, 12 for 35c, 40 for \$1.00, 100 for \$2.00, 1,000 for \$18.00. Small size, 25 for 35c, 50 for 60c, 100 for \$1.00, 1,000 for \$9.00.

Children's Mixture. This is a selection of a half-dozen or more pretty and interesting kinds that make small bulbs and give rapid increase, therefore can be grown and sold at a low price. Also they are kinds that can be grown indoors for winter blooming, though their management and handling are not so simple as of the common paperwhites, nor do they bloom so quickly, but their variety of color and form are a welcome addition to the sameness of the paperwhites. 12 for 25c, 25 for 40c, 100 for \$1.00.

Planting Stock. If you wish a large number of bulbs for a small amount of money, or wish to start a commercial planting of bulbs, or a large cut-flower bed, at a minimum of cost, and are willing to wait for the flowers, write for quotations on small planting sizes. In considerable quantities I can furnish Mixture, Children's Mixture,

Buttercup, and Golden Sceptre; in smaller quantities, Alba Plena Odorata, Tiny White, Yellow Biflorus and W. P. Milner, not less than 50c of an item. These would be in graded sizes. The bulbs of the larger sizes should bloom the second spring, of the smaller sizes one and two years later. If interested, write for details of grades and prices of the items in which you are interested. Quotations will probably be at a uniform price per pound of a variety, regardless of the number of bulbs in a pound.

Directions for growing will be included with every order of narcissus bulbs.
